EXPERIENCE

DELOITTE TOUCHE TOHMATSU INDIA LLP | SOFTWARE ENGINEER

(CONTRACT) Aug 2025 – Feb 2026 | Gurugram, Haryana, India

- Integrated ABDM healthcare APIs with structured error handling, reducing failed API calls by 25% and improving app stability.
- Improved application quality and reliability** – Developed comprehensive **unit and integration tests** while implementing enhanced **client-side error handling**, significantly reducing **production issues, crash scenarios**, and increasing **release confidence** raising test coverage from ~0% to 70% on critical ABDM flows, reducing P1 incidents from ~8 to ~3 per month.
- Migrated from Volley to OkHttp/Retrofit, reducing network error rate by 30%.

TATA ELXSI | SOFTWARE ENGINEER

(PRIMUSGLOBAL- CONTRACT) Sep 2024 – Feb 2025 | Bengaluru, Karnataka, India

- Improved performance by analysing **startup delays** and optimizing **data loading** and **application behaviour** across multiple scenarios. Reduced app cold-start time by ~28% by profiling startup delays with Android Studio Profiler and implementing lazy initialization.
- Owned Hybrid TV launcher EPG data validation** and **streaming playback reliability** for a Hybrid TV platform, **achieving 99%+ playback success rate**.
- Cut APK size 22% with ProGuard/R8 + App Bundles & Baseline Profiles.

JIO PLATFORMS LTD | SOFTWARE ENGINEER

Mar 2022 – Sep 2024 | Navi Mumbai, Maharashtra, India

- Designed and implemented end-to-end **Message Backup & Restore** feature using **Google Drive API, WorkManager, ContentResolver, and Room DB** — enabling automatic cloud backup of all device messages and seamless one-tap restoration on new device setup.
- Implemented and optimized features like **parallel downloads** and **torrent integration**. Reduced download time by 60%.
- Delivered TalkBack accessibility + home-screen widget support for JioSphere, used by 1 Lakh daily active users.
- Eliminated memory leaks using LeakCanary + heap-dump analysis, reducing OOM crashes by ~45% on mid-range devices.
- Migrated Chromium Engine across multiple versions (92 → 95 → 97 → 101 → 103) within the Android application, ensuring compatibility, stability, and performance improvements with each upgrade.
- Identified and resolved issues using **API analysis, logs, and debugging techniques**, improving **application stability** and **release quality**

CELEBAL TECHNOLOGIES | SOFTWARE DEVELOPER INTERN → FTE

July 2021- Mar 2022 | JAIPUR, RAJASTHAN, India

PERSONAL PROJECTS

EXPENSE TRACKER APP | JAVA, KOTLIN, JETPACK COMPOSE, GIT

- Developed full-featured expense tracker application** –using **Kotlin** and **Jetpack Compose** with **offline storage** via **Room database**; implemented **MVVM architecture** and **real-time UI updates**

SKILLS

Languages

Kotlin · Java

Android & Jetpack

Jetpack Compose · ViewModel · LiveData · Room · WorkManager · DataStore · Paging 3 · Navigation · Material Design 3

Architecture

Clean Architecture · MVVM · MVI

Concurrency & Reactive

Coroutines · Flow · StateFlow · SharedFlow · Custom Dispatchers

Networking

Retrofit · OkHttp · GraphQL · REST · WebSockets · Hilt

Performance & Profiling

LeakCanary · Android Studio Profiler · ProGuard / R8 · App Bundles

Testing

JUnit 5 · Mockito · Espresso

Build & DevOps

Git · GitHub Actions · Fastlane · Gradle · Play Console · Gradle Kotlin DSL ·

Cross-Platform

Kotlin Multiplatform · Compose Multiplatform

EDUCATION

R.T.U. KOTA

B.Tech CSe 2015 - 2019

K.V. No.1 Alwar

Higher Secondary 2014 – 2015

CERTIFICATES

- Microsoft Certified: Azure Data Fundamentals - Microsoft
- Developer Essentials, Lakehouse Platform Essentials & Foundations-Databricks
